STREET PRAISE DIGITAL PLATFORM PROPOSAL

Transforming a Movement into a Global System

1. INTRODUCTION

Street Praise is more than an outreach—it is a **movement** with a divine mandate:
to realize the Glory of God in the cities of the Nations.

To effectively sustain, grow, and scale this vision, there is a need for a **centralized digital platform (website + system + mobile app)** that connects people, manages activities, and expands the reach beyond physical gatherings.

This system will transform Street Praise from a local outreach into a **structured, scalable, and global movement platform**.

2. WHY THIS SYSTEM IS IMPORTANT

Currently, coordination through platforms like WhatsApp or manual processes has limitations:

- No structured member management
- No centralized communication
- No tracking of growth or impact
- Limited reach beyond physical attendance

The Solution

A dedicated system will:

- Centralize all activities (events, teachings, outreach)
- Build a strong and connected community
- Enable discipleship and spiritual growth tracking
- Expand reach beyond Nairobi to other cities and nations

In short: This system brings structure, growth, and global scalability.

3. CORE PLATFORM OVERVIEW

The system will consist of:

A. Website (Public + Member Access)

- Information hub (About, Vision, Events)
  Registration and engagement platform
- Media and teachings archive

B. Admin System (Management Dashboard)

- Manage events, members, and content
- Track attendance and engagement
- Send communications

C. Mobile App (Android & iOS)

- On-the-go access to everything
- Notifications and live engagement
- Stronger community connection

4. KEY FEATURES & FUNCTIONALITIES

4.1 EVENTS & GATHERINGS MANAGEMENT

What it does:

- Displays all Street Praise activities (Street Worship, Bible Study, Outreach)
- Allows members to register and attend

Features:

- Event creation & management
- RSVP / attendance tracking
- Event reminders (SMS / notifications)
- Location and time details

Impact:

- Organized and predictable gatherings
- Increased attendance and participation

4.2 LIVE STREAMING (GLOBAL REACH)

What it does:

- Broadcast Street Praise sessions live to the world

Features:

- Live worship streaming
- Real-time engagement (comments/chat)
- Saved recordings for later viewing

Impact:

- Reaches people beyond physical location
- Expands the movement globally

4.3 MEMBER MANAGEMENT SYSTEM

What it does:

- Registers and manages all participants

Features:

- User accounts (profiles)
- Participation history (events attended)
- Role assignment (member, volunteer, leader)

- **Impact:**

- Builds a structured and accountable community
- Helps identify active members and leaders

4.4 COMMUNITY GROUPS (LIKE WHATSAPP INSIDE THE SYSTEM)

What it does:

- Creates smaller communities within the movement

Features:

- Group chats (Bible study, outreach teams, worship teams)
- Messaging and file sharing
- Group discussions and announcements

Impact:

- Encourages fellowship and deeper relationships
- Reduces reliance on scattered WhatsApp groups

4.5 PRAYER REQUEST SYSTEM

What it does:

- Allows members to submit prayer needs

Features:

- Public or private prayer requests
- Anonymous submissions
- Prayer team tracking
- Testimonies (answered prayers)

Impact:

- Strengthens spiritual support system
- Builds faith and community care

4.6 DISCIPLESHIP & ONLINE COURSES

What it does:

- Provides structured spiritual growth

Features:

- Teaching modules (videos, notes)
- Progress tracking
- Assessments and completion tracking

Impact:

- Raises mature and equipped believers
- Moves members from attendance → discipleship

4.7 MEDIA & CONTENT PLATFORM

What it does:

- Stores and shares Street Praise content

Features:

- Photo gallery
- Worship videos
- Teachings and blog posts

Impact:

- Preserves moments and testimonies
- Attracts new people to the movement

4.8 NOTIFICATIONS & COMMUNICATION SYSTEM

What it does:

- Keeps everyone informed and engaged

Features:

- SMS alerts (important for local reach)
- Email updates
- Push notifications (mobile app)

Impact:

- Ensures no one misses key activities
- Improves engagement and consistency

4.9 GIVING / DONATION SYSTEM

What it does:

- Enables financial support for the movement

Features:

- M-Pesa integration
- Donation tracking
- Financial reporting

Impact:

- Sustains outreach activities
- Enables transparency and accountability

5. MOBILE APP (ANDROID & iOS)

Purpose:
To make Street Praise accessible anytime, anywhere.

Key Features:

- Event notifications (especially weekly Bible study)
- Live streaming access
- Member dashboard
- Prayer requests
- Community groups

Impact:

- Stronger daily engagement
- Movement becomes part of people's daily lives

6. LONG-TERM BENEFITS

Implementing this system will:

- Position Street Praise as a **modern, organized movement**
- Enable **expansion into multiple cities and nations**
- Create **consistent discipleship pathways**
- Strengthen **community and communication**
- Provide **data for decision-making and growth**

7. STRATEGIC VISION

This is not just a website.

It is a **digital altar**, a **community hub**, and a **discipleship engine** that will:

- Raise worshippers
- Build disciples
- Transform cities

8. CONCLUSION

Investing in this system is investing in the **future of the vision**.

From the streets of Nairobi…
To cities across the nations…

This platform will carry the movement forward with **structure, excellence, and global reach**.
